

April 27 - May 1

Hello Div. 10 students and families,

We are closing in on the end of April and I am happy to report that everyone in the class is coping well. We are getting more used to learning on line and participation has been increasing. I hope soon everyone will be taking part in some way. Based on our phone conversations, many of you are experiencing and learning good things at home with your family. Thank you for all your efforts!

Please continue to spend some time each day on school work and balance with play and relaxation. Remember 2-5 hours a week is recommended.

Your daily schedule might include:

\* Math - 1/2 hour daily on ixl program

\* Reading - 20 -30 minutes daily

Includes independent reading, Scholastic activities or using the Raz-kids reading program.

\* Writing - This week write me a short letter "Two Roses and a Thorn", which means tell me two positive things that have happened because of this lockdown and one not so good thing. Please e-mail these to me or snap a picture of the writing and send that.

Many students are working on the Raz-kids site already. \*\* This week I am assigning students some reading which they will record on the site.\*\* To do these students will log in, click 'My assignments' icon, and then read the book that has been assigned. I will be able to hear each student reading on my computer. Cool!!

Please note Mr. Lassche and Mr. Lee have put together activities for you and can be found on Tansor's virtual classroom page (Tansor Website.)

Stay well and enjoy the week!

Thank you.

Ms. Mazur
