

Week of April 27 – May 1

Hello All,

Thanks again to everyone who sent me pictures of work or personal projects. I miss seeing the learners every day and it is nice to get a little snapshot about what they are doing. A few things I would like to share in case your learner is looking for a little extra, under the bonus tasks tab there are lots of other activities including links to Mrs. Taylor and Mr. Lee's websites which include weekly challenges from Mrs. Taylor. I know our fine arts and careers teachers miss their learners just as much as I do. If your learners personal project includes something that they would like to share with their other teachers feel free to share it with them let me know to pass it along! My weekly Zoom times will be Tuesday and Thursday from 11-12, feel free to stop by if you need any help!

Please let me know if you are feeling overwhelmed. Learning, while important, doesn't take place until all essential needs are met. If all that happens this week is your family supports and cares for each other, then that is a success.

This Week Online

Math

IXL

Level E, J.6 - J.10

Level E, K.1 - K.2 (or K.5 - K.6 if you want a challenge)

(posted pages are optional if your learner would like the additional practice)

Literacy

IXL

Level D, M.1 - M.5 (Working on nouns)

Reading - book of your own choosing

Spelling words on Spelling City

Paragraph of the week - please send me the final page.

Personal Project

Send me a picture or sentence about what you are doing/learning on a topic of your choosing! I went on a walk (while appropriately distancing) and took some pictures of some fauna I didn't recognize and wanted to learn more about.

I hope everyone has a great week!

Aaron Koop, Educator
Tansor Elementary School

"Letting your mind play is the best way to solve problems."

~ Bill Watterson
