

## May 19 - 22

Hello Division 10 students and families,

I hope everyone had a nice weekend! This week is a short one so make time for a bit of school work as well as some time for rest and just enjoying being together. By now I'm sure we have all heard about a partial return to school in June and in the next few weeks we should receive more information about what that will look like for us. I can hear in your reading voices how much you have grown, but it will be really something to be able to see how you've changed in person!

Job well done to all those students who managed to write pen pal letters to a classmate. I encourage you to write back this week and answer some of the questions you were asked and to update each other on what's going on and how you are managing. I will be pleased to forward anything you send me.

For this week, please continue working on your math skills using IXL or your own site. On IXL I have highlighted numerous skills for students to practice and I encourage you to work through as many as you can.

In Reading, I am happy to see good use being made of the Raz kids site and hearing the recordings you are sending are great! I have assigned a new book for you to read this week.

The next unit of spelling words is on Spelling City for you to learn and practice.

Please remember to thank your parents and family for the extra help you are getting from them. Be as helpful as you can and show everyone you are an honourable Tansor Tiger!!

Missing you!

Ms. Mazur
