

Happy Monday :)

I hope that you all had a great weekend!!

This week is we will be working on chapter 23 in the math duo-tang. It practices addition with regrouping which was the focus last week as well.

I have attached a fun Father's Day activity that the kids might want to complete. The students at school are going to be gluing them to the inside of a card for Father's Day this weekend.

As always, please try to:

- read for 15-30 minutes per day
- write 4 to 8 sentences in your journal
- spellingcity.com ('Group A'- list 40, 'Group B'- list 30)

Thank you to those who have sent in pictures of the core competency sheets from last week. If you are unable to print them off, the children can just write their comments down on a piece of paper and that can be sent in as a picture instead.

If the children have a chance, continuing to work on the IXL diagnostic would also be something that the children can complete this week.

I hope that you have a wonderful week. Hopefully the weather starts clearing up so we can all go outside to enjoy some fresh air!

Mrs. Haugen
