

Good Morning Division 11 !!!

I hope that you had a wonderful weekend :).

I would like the children to continue doing the diagnostic part of the ixl math. It is quite a long process but in the end it is great to have the children working on concepts at their level. The math portion of ixl is available to the children over the summer and into next year. The children at school have been working on it as well. We are going to be working on chapter 22 in math this week as well (information page for how to help explain this is also in the duo tang). I have also attached a couple of youtube videos that help explain how to add with regrouping.

As always, please try to:

- read for 15-30 minutes per day
- write 4 to 8 sentences in your journal
- spellingcity.com ('Group A'- list 39, 'Group B'- list 29)

For Language Arts this week, I found some "bear" activities on the scholastic page. There have been many bear sightings lately so it might be fun to learn a little bit about them.

Bear activities: <https://classroommagazines.scholastic.com/support/learnathome/grades-1-2-week-3.html>

Math videos: https://www.youtube.com/watch?v=Q9sLfMrH8_w

I am going to set up a zoom meeting so the children can visit during snack time on Wednesday. It will be at 9:30 or so. I will send an invitation out after you receive this email.

Thank you to those who have sent pictures of your child's core competency pages. :)

Have a great week!

Mrs. Haugen
